TO WHOMSOEVER IT MAY CONCERN

October 15th, 2026

This is to certify that **Mr. Mehul Khanna**, a Bachelor of Engineering student in Robotics and Artificial Intelligence at Thapar Institute of Engineering and Technology, Patiala (**Roll No. 10232304**), successfully completed an internship with **CodeAsia** as a **Vulnerability Management Intern** from **1 June 2025 to 1 August 2025**.

During the internship, he worked with our security team on the company's vulnerability management process, including:

- **Vulnerability scanning and assessment:** assisted with security assessments of authorised web applications, mobile applications and network assets, and verified the issues found.
- **Risk rating and prioritisation:** rated the severity of findings using the company's process and helped prioritise them for remediation.
- **Remediation tracking:** documented findings with suggested fixes, followed up with the relevant team members and helped confirm that fixes were applied.
- **Automation:** developed Python scripts to automate routine vulnerability checks and reporting, subject to team review and testing.
- **Reporting:** prepared assessment notes and summaries of findings for the team.

Throughout the internship, Mehul was sincere, eager to learn and reliable in completing the tasks assigned to him, and his conduct was good. We wish him every success in his future studies and career.

Best Regards,
